

TRUECARE CAAD CENTRE 

Build Smarter Business Careers with **SAP**

**Industry-Oriented SAP
Training for Modern Business
Operations**

Learn enterprise resource planning systems used by organisations across industries to manage business processes efficiently.

SAP Course

Practical training focused on business operations, enterprise workflows, and real-world applications.

Programs powered by Synergy School of Business Skills

Professional SAP Learning for Industry-Ready Skills

Truecare Health & Education brings career-focused SAP training powered by Synergy School of Business Skills, designed to help students and professionals understand modern enterprise business systems used across industries.

The Synergy School of Business Skills program focuses on practical learning and real-world business processes, helping learners gain exposure to how organisations manage operations, reporting, workflow coordination, and enterprise planning through SAP environments.

Students develop foundational understanding and operational skills that support career opportunities in business management, accounting support, ERP operations, and corporate process management.

Industry-oriented SAP learning aligned with modern enterprise environments.
